This is...
YOUR MOMENT.

ENTERTAINMENT

We've been telling brides and grooms this for years and it's never been more true. This wedding that you are planning, that you've been envisioning and dreaming about for years, is your time to shine. And the celebration will be something your family and friends talk about for years.

At Elite Entertainment we know this and understand the importance of every decision you make. We've been doing this for decades and we are considered by most to be The Wedding Experts in all of New Jersey. We've received more awards and recognitions than any other entertainment company in New Jersey! But none of that really matters. What matters is **your moment**. What matters is that you get exactly what you want on your wedding day. If you want a wild and crazy party we can do that. If you want something simpler and more elegant we can do that too. Most likely you want something in between and yes, we can do that too.

When it comes to taking wedding pictures, and designing wedding albums, our Elite Digital Image photographers are fun and creative, looking to get the best possible images for you, for your family, and for your bridal party. We also aim to be unobtrusive. You tell us the style you are looking for (from traditional to wild and crazy and everything in between) and that's what you'll get. We do not have photographers on staff who think they know what's best for every couple. We want your input and we want to make sure the images we take on your big day are the images you always envisioned.
